## PROJECTS

### **Kickrestarter** (*Rails, React.js, Flux*), - [live](#) | [github](#)

Single page Full Stack clone of kickstarter.com

- Utilizes a Rails backend with a RESTful JSON API.
- Enables scalability with AWS S3 storage.
- Demonstrates DRY coding methodology by reusing data formatting functions within app.
- Organizes complex data into related models to keep inter-related models connected through associations, yet still individually accessible.

### **ChordWars** (*JavaScript, React.js, Flux*), - [live](#) | [github](#)

Educational JavaScript game using the WebMIDI API

- Instantiates random new chord object from scratch by calculating relevant note intervals using an object oriented design of notes and chords.
- Integrates the WebMIDI API allowing seamless midi controller hardware compatibility.

### **DOMinate** (*JavaScript*), - [github](#)

Lightweight JavaScript DOM manipulation library

- Allows easy access to DOM elements and their attributes allowing for dynamic app development.
- Implemented a custom AJAX method using XMLHttpRequest.

## EXPERIENCE

### **JOLLY Inc.,** *Founder & CEO* - 2008 - PRESENT
